1 Reproducibility Summary

Add your summary here. No need to worry about fitting it in a single page now.

1.1 Submission Checklist

Double check the file `journal/metadata.yaml` to contain the following information:

- Title should start with "[Re]"
- Author information, along with ORCID id
- Author affiliations
- Code URL, Software Heritage Foundation link
- Abstract
- Review URL (the OpenReview URL of your report)

1.2 Continuous Integration

We use Github Actions CI to check your submission and compile the pdf file subsequently. You can also run the tests locally by running `python check_yaml.py`, and then running `./build.sh` to compile LaTeX.
